Kacper Wojak

Flutter Mobile Developer

Poland collab@gonciu.dev https://gonciu.dev

LinkedIn GitHub

Summary

I am a **Mobile Developer** with five years of experience, of which three were commercial as a Flutter Developer. I began programming in **Kotlin** and then transferred to **Flutter** because it allowed me to build visually good-looking cross-platform applications with ease. Additionally, I have foundational experience in **Swift**, allowing me to implement native features effectively.

Experience

Nocadis

Flutter Mobile Developer

Remote, Poland

Jul 2022 to Present

- Develop and maintain mobile applications using Flutter, enhancing user experience and performance.
- Participated in the full app development lifecycle, from concept to deployment.
- Collaborated within Scrum teams, actively participating in daily stand-ups, sprint planning, and retrospectives to ensure efficient and timely project delivery.
